SEERSMEDICAL Limited design and manufacture in the UK a wide range of patient examination furniture for various medical procedures such as Gynaecology, Ultrasound, Phlebotomy, Lymphoedema, Physiotherapy and Osteopathy. There is a wide choice of models and accessories to cater for various examination procedures as well as specialist treatment and minor ops etc. All models are variable in height with a choice of both manual or electric positioning and height operation.

The development of these products has been achieved by applying our many years of experience and knowledge in this market. A lot of thought has been given to the design to benefit both the comfort and security of the patients as well as providing manual handling solutions which promote good posture and ergonomics to all clinical staff when they are using this equipment.

We trust you will experience this yourself when you purchase a SEERS MEDICAL product.

UK production facility

- Safe working load and lifting capacity (from minimum height) of 240kgs on all Therapy couch products to cater for very heavy patients. **240kgs=37.7 stone=528lbs**
- **Extremely strong** and rigid for longevity and constant heavy use
- **Variable in height** to promote the correct posture and working position for clinical staff during medical examinations and various treatment procedures
- **Choice of hydraulic or electric** height control to suit the independent requirement of the user and the environment
- **Low patient transfer heights** to minimise manual handling
- **Integral wheel system** for ease of movement and positioning
- **Anti bacterial upholstery vinyl** –will not support microbial or fungal growth including salmonella, E Coli and **MRSA**
- **All pivot points** are fitted with **Oilite®** self lubricating bearings which are impregnated with a mineral oil to reduce wear and provide both smooth and silent operation, requiring minimal maintenance
- **Anti-trap design** gas strut cylinders on the majority of backrests and elevating sections, requiring the use of the “release lever” only when returning the section back to the “closed or negative” position
- **Wide choice of models** and optional accessories providing suitability for a wide range of patient examinations and various treatment procedures
- **All couch frames** include fixation holes for easy addition of optional accessories

Oilite® is the registered trademark of Oilite Bearings Ltd

OPTIONAL COUCH ACCESSORIES

Model 6200 Foot Switch

This switch is placed on the floor and operated by foot to raise or lower the couch effortlessly.

Model 6001 Perimeter Foot Switch

Available as an alternative to hand or foot switch control on electric models, this integral system enables the therapist to control the height of the couch by simple "up or down" foot pressure on the perimeter bar.

Model 6002 Side Support Rails

The "swing-down" side support rails can be added to either one or both sides of the couch. The support rails are nylon coated for durability.

Model 6002P Side Support Cushion

Support cushions for additional comfort and protection can be added to the side support rails. The cushions are made from high density foam and matching upholstery.

Model 6004 Breathing Hole and Plug

The comfortable breathing hole with removable plug improves patient comfort when lying prone.

Model 6053 Protective Base Shrouding

An easy to clean moulded shroud that covers all the moving parts of the base frame.

Model 6044 Gynaecology Stirrups

Traditional lithotomy stirrups can be fitted as an alternative to leg supports when desired.

Model 6041 Side Support Loops

Arm support loops can be added to offer greater patient support and security when required.

Model 6005 Paper Towel Holder

This is usually fitted to the reverse of the backrest to enable paper towel to be dispensed easily over the full length of the couch or backrest as desired.

Model 6007 - Removable Head/Knee Support

This "half moon" shaped support is ideal for supporting the head, neck or lower limb during specific treatments or positioned purely for comfort. This cushioned foam support is available in a choice of 6 upholstery colours - see back cover

Model 6045 Gynaecology Leg Supports

Articulating moulded leg supports with height and rotational adjustment for ultimate positioning.

Model 6054 IV Pole

The Telescopic IV pole is simple to attach to either side of the couch and is removable when necessary.

Upholstery Colour Range

All of the SEERS MEDICAL products are available in a choice of 7 upholstery colours

Other upholstery colours available on request, please contact the sales office for further details

PLEASE NOTE: The illustrated colours may vary slightly from actual vinyl supplied. This occurs due to the four colour printing process. However every attempt has been made to make them as accurate as possible.
